Tenth Avenue at 36th Street, New York, N. Y.

Engineering and Mining Journal

Index to Volume 131 - - - January to June, 1931

Explanatory Note

THE general index to this volume is preceded by a list of the editorials published in the volume, and is followed by an index of authors. In the general index editorials are denoted by the letter "e" and news items by the letter "n." Following is a list of the pages included in the numbers of the volume by date:

Jan. 12	1 to 46
Jan. 26	47 to 94
Feb. 9	95 to 154
Feb. 23	155 to 202
Mar. 9	203 to 250
Mar. 23	251 to 300
Apr. 13	301 to 348
Apr. 27	349 to 396
May 11	397 to 444
May 25	445 to 492
June 8	493 to 540
June 22	541 to 588

EDITORIALS

Abnormal underground conditions prompt new technique 157
Accounting as practiced by mining companies 398
Alaska's increased appropriation 399
All-metal house—future possibility 205
Amalgamation in treating refractory gold ore 48
Amalgamation and the current economic situation 350
American business and the depression .. 48
Another mineral byproduct plant reaches production 446
"Buy now" also applies to research 204
California moves to stabilize mineral production 494
Capture of colloidal gold 398
Central milling and the future of the Tri-State District 47
China and the silver standard 47
Copper refining becomes more of an international art 301
Cost standards and the personal element 495
Deep gold mines and geothermal gradients 447
Eliminating a nuisance increases earnings 48
Employer and employee and the depression 2
Engineers as administrators and managers 494
Facilitating the acquisition of knowledge 541
Free-wheeling and asbestos market conditions 446
Future planning must be based on sound principles 203
Geology of the Yosemite Valley 204
Gold producion increases in California .. 156
Increased state mine taxation undesirable 397
Increasing silver value by hallmarking 302
Industrial and personal forecasting and planning 301
Institute stages a celebration 445
Interesting hobby for mining engineers 156
Iodine monopoly is threatened 2
Metallurgical extraction and actual recovery of gold 543
Mineral vs. gangue 252
Mining reports by free lance writers 495
One hundred years of electrical engineering 543
Opportunities for production economies 494
Optimistic view of the future of gold mining 252
Physical aids to metallurgic efficiency .. 542
Physical handicaps no unsurmountable obstacle 2
Platform for American business 251
Producing and manufacturing 399
Production and utilization of insulating materials 350
Proper equipment maintenance essential to efficiency 399
Prospector is worthy of his hire 446
Providing adequate insurance against survival 447
Quicksilver metallurgy losses and recoveries 349
Research and reasoning in economic rehabilitation 95
Safety first, last, and all the time 541
Scientific methods of control are needed 157
Still more neglected uses for silver 251
Syngenetic or epigenetic—geologic problem 251
Taxation of net profits is recommended. 542
Taking the bumps out of the business cycle 493
Technical sessions at institute meetings 205
Technical writing is an engineering task 397
Technique of non-submergence leaching 204
Tenacity of purpose governs the progress of safety 302
Testing of zinkiferous cyanide solutions 493
To aid the producers and users of silver 155
Ultimate economy in plant modernization 156
Utilizing Diesel-engine waste heat 445
Wood, George McLane 1
Working the less attractive gold deposits 349

GENERAL INDEX

A

Accidents and Accident Prevention—Arizona accident statistics 79
Accident compensation insurance in California. G. J. Young 21
Accidents and accident prevention, see also Safety.
Accounting as practiced by mining companies e398
Ahumada Lead—Continuing drift to explore eastern area n239
To close mines n528
Airplanes—Bremen-type Junkers airplane .. *329

Alaska

Alaska and the geological survey. P. S. Smith c523
Increased appropriation e399
Survey of Alaskan resources n386
What of Alaska? D. L. Sawyer *400
Alaska Juneau Gold—Ebner properties offered to U.S.S.R. & M. n190
Grade in North orebody n334
Milling system *369
Preparing to mine North orebody n285
Aldermac Mines—Start work on new concentrator n528
Alignment chart 179
Aluminum—Production. C. L. Mantell .. 102
American Cyanamid Company—Progress in flotation practice and equipment. S. J. Swainson 69

American Institute of Mining Engineers

Anniversary meeting n385
Brownell outlines plan for silver stabilization n290
California compensation costs discussed at meeting n386
Stages a celebration e445
American Institute of Mining & Metallurgical Engineers—Meeting in New York ... 186
American Metal Co.—Geology of the Pecos Mine. C. E. Stott 270
American Smelting & Refining — Buchans Mine in Newfoundland. F. W. Foote. *166
Builds tram at Yankee Mines n527
Completes changes at Rosita Zinc smelter n190
Cutting tools are cheaply reconditioned. *175
Dolores Mine closed n32
Enters Kingman area n289
Ships Yankee ore 80
Two lead smelters to close for summer .. n576
Yankee Mines ship gold ore n80, 383

American Zinc Institute

Advances in zinc metallurgy 420
Indorses market-broadening program. H. D. Keiser n382
American Zinc, Lead & Smelting—New ore at Mascot n334
Amparo Mining—Crosscut at Pasadena Mine n431
Anaconda Copper Mining—Chile Copper—increase in reserves n32
Contracts for natural-gas supply n236
Determination of cadmium, lead, and iron in high-grade zinc. B. H. Strom 465
Giesche Spolka cuts output, wages n236
Syndicate vein at Butte developing well 31
Antimony. P. M. Tyler 111
Apatite — Kola Peninsula phosphate deposits. Leon Khvostovsky 407
Argentina—Mining in 1930. S. D. Strauss 129
Arizona Potash Co.—Forming to develop Whelan property 33
Arkansas Mining & Development—Report lead find n575
Asbestos—Free-wheeling and asbestos market conditions e446
Production. N. R. Fisher 101
Ashanti Goldfields—Reports record month 83
Associated Tin Mines—Report n532
Association of American State Geologists —Urge closer co-operation n190
August Mining — Landusky, Mont., ship high-grade gold ore from 82
Australasia in 1930—Mining. P. G. Tait. 133
Australia—Government buys huge nugget found in Western Australia 150
Improving industrial relations in Australia. C. A. Mitke *544

B

Balatoc Mining — Increase milling capacities n285
Balfour Development Syndicate—Formed to prospect claims in Transvaal n532
Barite—Arkansas deposit. G. C. Branner .. 512
Barry-Hollinger — To continue winze to 2,125 level n289
Barytes. Oliver Bowles 115
Bauxite. P. M. Tyler 112
Bearings—Cooling coil prevents overheating of bearing *172
Belmont Copper—Leasers strike ore n289
Benguet Consolidated — Hartwell Mine starts shipping n384
Mine being depleted n289
Beralt Tin & Wolfram — Developing ore bodies n580
Big Canyon—Gould & Co. options property n334
Big Jim—Crosscut finds vein n429
Bingham Metals—Utah Copper closes deal for Bingham dumping rights 149
Bisbee orebodies reviewed. Carl Trischka .. 500
Blasting—Mechanical mining and treatment of sulphur. J. B. Nealey *253
Bob holdings liquidated to pay debts n429
Bolivia—Report riots for food in mining area n482
Mining in 1930. S. D. Strauss 129

Book Reviews and Digests

Annual report of the government mining engineer ..... e 566
Applied geophysics. Eve & Keyes 231
Artificial sunlight. M. Luckiesh 566
Cohort of the tropics. Owen Letcher 470
Elementary economic geology. H. Ries. 471
Engineering geology. Reis & Watson .. 586
Geology of the golden area. J. H. Johnson 231
Handbook of scraper mucking 471
Handbook for prospectors. M. W. von Bernewitz 586
High speed steel. Grossman & Bain .. 565
Iron ores of Lake Superior. Cromwell & Murray 565
Lehrbuch der Erzmikroskopie. Schneiderhohn & Ramdohr 565
Living Africa. Bailey Willis 565
Menace of overproduction. Scoville Hamlin 471
Methods in geological surveying. Greenly & Williams 470
Mining year book. W. E. Skinner 471
One man's gold. F. M. Christman 566
Publishing service provided for long technical articles n529
Surveying calculations. Fred Winiberg 565
Wagons west. Elizabeth Page 586
Working of semi-precious stones. J. H. Howard 566
World's economic dilemma. E. M. Patterson 231
Yankee trader in the Gold Rush. K. A. White 586
Borax Consolidated—Interested in sylvite discovery n292
Boulder Perseverance—Not decided on new plant n575
Bradshaw, Inc.—Output rising n575
Brazil — Manganese deposits. Emilio Teixeira *379
Mining in 1930. S. D. Strauss 129

e editorial; n news; c comment and criticism

Science Library
Wahr

British Columbia—Sullivan mine. G. J. Young *215
Broken Hill—Miners agree on wages.... 150
Current flotation practice 552
Vanadium mill started n34
Wage disagreement threatens operations 37
Broken Hill South—Precise shaft surveying. A. B. Black *496
Production resumed n436
Buchans Mine, see American Smelting & Refining.
Bullion Chief—Develops Maxfield silver-lead property n35
Bunker Hill & Sullivan—Mine cars. A. H. Hubbell *162
Ore linked by new deposit n286

Business Conditions

American business and the depression.. e48
Industrial and personal forecasting and planning e301
Taking the bumps out of the business cycle e493
Business platform e203
Butte & Superior Mining—Dismantling surface plant n81
Bwana M'Kubwa, see Rhokana Corporation.

C

California—Lack of money hampers gold mines n526
California Debris Commission—Grants three hydraulic permits n530
Calumet & Arizona—Change of officers.... n381
Cooling coil prevents overheating of bearing *172
Cut and fill stoping. M. J. Elsing.... 409
Keeping a turbine in perfect alignment. *449
New equipment makes saving in costs.. n288
Steam power plant establishes a standard. G. J. Young *183
Window opening and closing device.... *468
Calumet & Hecla—Ahmeek mill remodeling may be completed soon n529
Ahmeek power plant in operation..... n237
Ahmeek work shows drop in grade..... n336
Continues at Phoenix n289
Cuts Kearsarge in South Hecla area.. 80
Cuts wages n526
Kearsarge to be developed n431
Now at 50 per cent of 1930 production. n576
Officials cleared in Cliff stock suit verdict n573
Working four drills in Keweenaw County n477

Canada

Canadian output of metals expands. S. J. Cook 125
Pre-Cambrian conceptions. A. & R. D. Hoffman *211
Revises tariff upward; mining equipment unchanged n533
Canadian Copper Refiners plant starting.. n192
Cars, see Transportation and Equipment.
Central America—Mining in 1930. S. D. Strauss 129
Central Eureka Mining—1930 results.... n577
Central Mining & Investment—Annual report shows Rand Mines Group better... n528
Cerro de Pasco Copper—Development adds ore at depth n480
Chambishi Mines — Now owned by Mufulira n340
Champion Copper, see Copper Range.

Charts

Alignment 179
Gear or pulley ratio chart. S. C. Mifflen 551
Indicated horsepower chart. S. C. Mifflen 355
Mean effective pressure chart. S. C. Mifflen 269
Weir discharge chart. S. C. Mifflen.. 459
Chief Consolidated—Strike Tintic Bullion ore near North Lily n190
Chile—Mining in 1930. S. D. Strauss.. 129
Chile Copper, see Anaconda Copper Mining.
Christmas Copper — Drilling at No. 4 shaft n337
Chromite. P. M. Tyler 111
Chute gates sectionalized 20
Cia. Minera Chambas—Cotter-pin extractor. *514
Cia. Minera y Beneficiadora de Inde—Electrical transmission chart 168
Clastic form in size measurement. E. A. Hersam 403
Clay—Flint clay mining. H. D. Keiser.... 13
Clearfield District—Mining flint clay. H. D. Keiser 13
Cobalt—Production. G. C. Bateman..... 102
Coeur d'Alene mines close as lead drops.. n478
Colombia—Mining in 1930. S. D. Strauss 129
Combined Metals—Curtails production... n478
Development in Pioche area n33
V-belt driven applied to mine hoist.... 16
Commerce Mining & Royalty—Bird Dog mill successful n526
Central milling in the Tri-State district. E. Isern 49
Compressed-air sampling. Elmer Isern.. *351
Suspended crusher replaced rolls. H. D. Keiser 67
Compagnie Du Boleo — Automatic switch controls centrifugal pumps *508
Reverberatory furnace repair *514

Concentration

Alaska Juneau milling system *369
Amalgamation practice in Canada. R. A. Vary 463
Central milling and the future of the Tri-State District 47
Central milling in the Tri-State District. E. Isern 49
Charging grinding rods *360
Clastic form in size measurement. E. A. Hersam 403
Crushing and flotation at Morenci, Arizona. G. J. Young 461
Determination of grinding factors..... *225
Effect of grinding time and pulp dilution on flotation. Fahrenwald & Abele.... *169
Many difficult separations can be effected by magnetic means. J. L. Hope 283
Mining and milling in the Vermont copper district. C. S. Anderson..... 208
Selective lead-zinc flotation at Kimberley, B. C. G. J. Young 313
Standardized sieving methods. Alan Probert 311
Suspended crusher replaces rolls. H. D. Keiser 67
Tailing disposal innovations *275
Tungsten mining and milling. J. B. Hutt. *405
Zinc smelting in Mexico. Spooner & Jenni *558
Consolidated Copper Mines—Development successful in 1930 ..... n336
Smith wins proxy dispute for control.. n430, 479
Consolidated Diamond Mines—Report..... n436
Consolidated Lead & Zinc Co.—New alignment chart 179
Consolidated Metals—Wilshire property to produce n429
Consolidated Mining & Smelting — Costs lowered in all units n433
Lead smelting and zinc fuming at Tadanac, B. C. G. J. Young..... *415
Sullivan Mine. G. J. Young..... 215
Selective lead-zinc flotation at Kimberley, B. C. G. J. Young 313
To pay for fume damages n286
Zinc, acid and fertilizer plants. G. J. Young *506
Conventions—Technical sessions at institute meetings e205

Conveyors

Bucket excavator with crane conveyor. Karl Baldauf *367
Limestone transportation. C. K. Traber. *206
Mining overburden in Germany. Richard Thomas *282
Open-cut mining of fireclay. H. D. Keiser *303
Rotary tubular conveyor 77

Copper

Arizona conference votes for tariff on copper n480
Arizona holds "copper tariff" week; appoints commission n530
Battelle Institute to study properties of Lake copper n290
Copper refining becomes more of an international art e301
Mining and milling in the Vermont copper district. C. S. Anderson..... 208
Mining of copper in Michigan in 1852.. *518
New alloy evolved at Montana School.. n430
Tepezala Mines—Technical practice... 373
World copper-ore reserves. P. E. Barbour 178
World copper-refining capacity. P. E. Barbour 366
World production. A. Notman 103
Copper Range—Champion now 25 per cent under 1930 output rate 149
Cut wages, reduces working hours.... n574
Extends option on Globe area n431
Flotation of native copper at Freda, Mich. Edward Koepel *509
Cosach goes into effect n432
Cost standards and personal element..... e495
Croesus Proprietary—Development trends to northern area 84
Crown Diamond Mining & Exploration—New ore n241
Crushing, see Concentration.
Cuba—Mining in 1930. S. D. Strauss.... 130
Cusi-Mexicana Mining—West orebody shows high-grade ore n239
Cyanidation, see Metallurgy.
Cyril Knight Prospecting Co.—Nickel in the Far North. John Drybrough..... *309

D

Dams—Construction and operation of tailing dam *453
Dawes Gold Mines—Arranges for Scossa pilot mill n482
Dayrock Mining—Sinks new winze..... n290

Diamonds

African bort in diamond drilling. J. Hanifen 75
Digest of current technical literature.. 72, 182, 279, 374
Directory of mining 139
Dividends paid in 1929 and 1930 142
Dome Mines—Ore reserves increased.... n433
Drawings—New method of making relief models *305
Splicing tracing cloth 165

Drills and Drilling

Drilling from a 47-ft. column..... *468
Grinding drill shanks *519
Light diamond drill gives good results on test *570
Matching the rock drill to conditions. F. E. Bruhn 17
Mining flint clay. H. D. Keiser..... 13
Dumping—Bucket dump of novel construction 71
Dust recovery — Kepner, Romanoff & Thieme 60

E

Eagle-Picher Mining & Smelting — Plans for unemployment n434
Plans new concentrator n526
East Geduld—Estimates ore reserves.... 150
Mill progressing n241
Education—Facilitating the acquisition of knowledge e541
Electrical transmission chart..... 168
Electrolytic Zinc—Production reported.... n532
To pay no dividend for half year..... 150
Elevators—Novel installation *419
Elisa Mine—Cut and fill stoping. M. J. Elsing 409
Elkoro Mines—End of operations in sight. n479
Elko Prince—Reopened mine..... n481
Empire Star, see Newmont Mining..... 131
Employees, see Labor.
Engineering—Mining fellowships offered by School of Mines 34
One hundred years of electrical engineering e543
Engineering and Mining Journal—Historical summary 1

Engineers

Counsel and suggestion to a graduating class 548
Engineers as administrators and managers e494
Secrets of success; for the graduate engineer. C. W. Wright c525
Technical writing is an engineering task e397
Training the mining engineer to direct and control. F. G. Hill 359

Engines

Indicated horsepower chart. S. C. Mifflen 355
Internal-combustion engines in the mining industry. A. H. Hubbell... *218, *266
Mean effective pressure chart. S. C. Mifflen 269
Utilizing Diesel-engine waste e445

Equipment

Assay balance 77
Balancing equipment 28
Bearing with oil reservoir at base..... *427
Bearings, cageless *427
Bin section for the warehouse 284
Blast furnace blower 77
Boot pulley Timkenized *329
Bucket loader 235
Bucking bar, adjustable *312
Cables, insulated aluminum 476
Cage-signaling system. L. D. Stewart.. *448
Capstan car puller 76
Centrifugal pumping units 284
Circuit-breaker switch 77
Clamps for fuse clips *358
Clutch magnetic *428
Constant-weight feeder 77
Conveyors, portable belt 428
Crawler crane *426
Crusher, all steel jaw *571
Crusher, cone *233
Crusher, jaw 521
Crusher, reduction *330
Cutting machine *268
Dipper door reinforcement casting..... 30
Drip covers for motors 185
Dryer, rotary *233
Dumper, car *233
Dust collector *426
Dust recovery test unit *572
Electrode 428
Excavator, bucket *367
Excavator, convertible *572
Excavator, 1 yd. 235, *521
Excavators, small size 329
Feeder of manganese steel 379
Floodlight 379
Flotation machine *331
Ford adapted to rail transportation..... *427
Hard-facing with stellite prolongs life of mining tools *184

Hat, miner's safety 380
Haulage accessories 330
Hoist, air *234
Hoist, chain of aluminum 330
Hoist drive 234
Hoist, electric double-drum 329
Indicator, Vulcan gas 378
Industrial progress in 1930 134
Instrument for measuring heating effect of gases *235
Jackhammers for hitchcutting *177
Jaws for vise *557
Ladder of metal *360
Lamp, incandescent 428
Lathe for the shop 30
Loader, portable *572
Magnetic separator 30
Manometer 284
Meter, electric flow *184
Miner's "self-rescuer" *428
Motor base, one-piece *428
Motor has separable parts *427
Motor, synchronous 235
Motor, totally inclosed synchronous *427
Pipe for ventilation and drainage 77
Pipe, welding spiral 380
Pipe, wood-lined, alloy 476
Prospecting drill 30
Pump, centrifugal *331
Push-button, explosion-proof 330
Pyrometer, new potentiometer *522
Rail bonding 330
Recording smoke 378
Rectifier, increased power for mercury arc 234
Reduction gear unit combined with motor 379
Release for assay balances *365
Rotary dryer 77
Rotor, herringbone 185
Sampler, automatic *378
Screen, vibrating *330, 571
Screen, vibrating conveyor *331
Separator, induction *379
Shanking device *365
Shovel, power *234
Single-roll crusher 77
Speed reducer *522
Springs, handmade coil *464
Steam turbine 30
Switchgear for controlling station auxiliaries 185
Tool holder for tapping roaster rabble arms 20
Tools tipped with hard alloy 427
Trackshifting, raising and maintenance machine 234
"Transit-level" *379
Trolley haulage accessories 572
Turbine, mechanical-drive 379
Valves for hydraulic piping *161
Ventilating blower 378
Ventilating equipment 284
"Weightograph" 185
Welded steel gears *476
Eureka Standard, see Tintic Standard.
Europe, Siberia, Far East, and India. D. J. Farquharson 131
Evergreen Mining — Change in sintering practice doubles plant capacity n531

F

Fabulosa Mines Consolidated—Production of 1930 ..... n580
Fairbanks Exploration, see U. S. Smelting.
Falconbridge Nickel Mines — Accident closes n385, 433
Reserves rise n336
Federal Consolidated Mining—Nevada City —new mill n527
Federal Mining & Smelting—Morning mine being developed n240

Federated Malay States
Adopts legislation for tin export quota plan n381
Report n532
Restrict foreign holdings in tin companies 38
Tin agreement to be put into effect n580
Tin quota scheme undecided 150
Feldspar. Oliver Bowles 115
Fireclay—Open-cut mining of fireclay. H. D. Keiser *303

Flotation
Broken Hill flotation practice 552
Crushing and flotation at Morenci, Arizona. G. J. Young 461
Effect of grinding time and pulp dilution on flotation. Fahrenwald & Abele .. *169
Flotation terminology. Francis Tartaron . c425
Laboratory feeder for flotation reagents . *277
Mechanical mining and treatment of sulphur. J. B. Nealey *253
Mineral vs. gangue e252
Native copper flotation at Freda, Mich. Edward Koepel *509
Progress in flotation practice and equipment. S. J. Swainson 69
Selective lead-zinc flotation at Kimberley, B. C. 313
Flow sheet of Alaska Juneau mill 369
Flow sheet of oxide zinc plant 507
Flow sheet of the Bird Dog mill 51, 350
Flow sheet of tungsten concentrator 406
Flow sheet of zinc sulphide treatment plant 506
Flowery Mine—Resumes milling n190
Fluorspar. Oliver Bowles 116
France—Scraper loading in France 24
Freeport Texas — Mechanical mining and treatment of sulphur. J. B. Nealey .. *253
Plant to be built at Cuban Manganese Mines n240
Freight rates on metals, ores and concentrates 94
Fresnillo Mines—Cuts ore at 560 m n236
Depth development proves ore continuation n482
Furnaces—Low pressure steam improves drill furnace operation 54
Rock-drill furnace *222

G

Gas
Changes in gas producer field 476
Driving turbines with natural gas *474
Natural gas. A. H. Hubbell 453
Natural gas for Arizona mines ready on Aug. 1 148
Natural gas installation costs. B. N. Rickard c569
Southwest gets natural gas ahead of schedule n576
Gears, turning and milling *469
Gear or pulley ratio chart. S. C. Mifflen .. 551

Geology
Alaska and the geological survey. P. S. Smith c523
Barite in Arkansas. G. C. Branner 512
Bisbee orebodies reviewed. Carl Trischka 500
Congress postponed because of depression n531
Geophysics in exploration. S. F. Kelly .. 11
How long does an ore deposit take to form? Lucien Eaton c524
Mining laws and geology of Newfoundland. F. W. Foote 56
Pecos Mine. C. E. Stott 270
Use of ore guides. Roland Blanchard .. 173
Yosemite Valley e204
Mine filling practice in Germany. H. F. Kutschbach *276
Mining overburden. Richard Thomas .. *282
Globe & Phoenix Gold Mining—New power plant n533
Golconda Lead—Drifts at 1,800 ft 82

Gold
Amalgamation in treating refractory gold ore e48
Amalgamation practice in Canada. R. A. Vary 463
Australian production increases n532
Capture of colloidal gold e398
Cyaniding low grade gold ore. G. J. Young *561
Deep gold mines and geothermal gradients e447
"Gold farms" of the Inambari *172
Group research among gold producers. R. M. P. Hamilton *356
Huge nugget find at Larkinville, Western Australia 82
Labor factor in gold mining. H. S. Elford c377
Labor factor in gold mining. S. D. Strauss 65, c377
Metallurgical extraction and actual recovery of gold e543
Opportunities for amalgamation. F. A. Thomson c473
Optimistic view of the future of gold mining e252
Placer gold in Peru. H. D. Keiser *260, 333, 425
Production chart 1905-1929 66
Production increases in California e156
Propose Nevada gold bonus n191
Record Transvaal output above 1929 .. 86
Working the less attractive gold deposits. e349
World production. R. J. Grant 97
Gold Hill Development — Drifts on 400 level n384
May raise output n289
Gold Metals Consolidated Mines—To be reincorporated n482
Gold Metals Mining—To deepen shaft n290
Golden Cycle Mining & Reduction Co.—Softening and clarifying boiler feed water. Gail Martin *475
Granby Consolidated—Consolidated Mining & Smelting examines mine 34
Reserves up slightly n386
Graphite—Production. B. L. Miller 104
Great Western Salt—Plans starting new unit in April 82
Green Fire Brick Co.—Open-cut mining of fireclay. H. D. Keiser *303
Gunsight Mining—Starts shipping 80
Gypsum. Oliver Bowles 116

H

Hammon Copper — Bucket dump of novel construction 71
Haulage, see Transportation.
Hecla Mining—Mine cars. A. H. Hubbell .. *162
Ore reserves drop n237
Hillside Fluor Spar Mines—Mine cars. A. H. Hubbell *162

Hoists
Portable hoist 571
Precise shaft surveying. A. B. Black . *496
Scraper loading in France 24
Selection and care of hoisting ropes. David Butchart 8
Skip-changing installations 23
Slusher hoist fully inclosed 76
V-belt drive applies to mine hoist 16
Hollinger Consolidated—Reserves increase . n429
Tonnage to be raised n238
Homestake Mining—Drop in reserves n288
Ellison surface plant being completed 80
Homestead Mining Co.—Mine cars. A. H. Hubbell *162
Hoover Dam—Four tunnels to be started . n335
Hope Metals Co.—Charging small batteries *563
Howe Sound—Buena Tierra—new ore n432
Potosi Mining development continues .. 79

Sunnyside tunnel started n429
United Vanadium—Gold strike at Dripping Springs n578
United Verde Copper — Furnace closed down n385
Compact switch throw *557
Negotiates for Verde Central at Jerome. n238
Output down to 2,400 tons monthly.... 31
Smelter down n480
Tool holder for tapping roaster rabble arms 20
United Verde Extension — Cuts vein at Vulture n334
Deny rumors of shutdown 148
Efficient skip-changing installations.... 23
Sectionalizing of chute gates effects simplification 20
Shows little change e182
To close for summer n573
Uranium, radium and vanadium. P. M. Tyler 114
Utah Bunker Hill—Cuts lead ore n576
Utah Copper—Costs rise n386
Electric ore haulage. L. W. Birch.... *176
Utah Metal & Tunnel—Utah Copper bids for rights n190

V

Vanadium—Recovery at Rhodesian Broken Hill 259
Recovery from Titaniferous iron ore. Bjorn Kjellberg 460
Venezuela — Mining in 1930. S. D. Strauss 130
Ventures, Ltd.—Opemiska to be important property n433
Ventilation—Air injector for raise ventilation *368
Gravity hinge for ventilation doors.... *466
Window opening and closing device.... *468
Victoria Prospecting Co.—Obtains grant in Southern Rhodesia n241
Vipond Consolidated—Deepen workings... 83
Volatilization — Processes for low-grade zinc material. K. R. Coehre 19

W

Wabana Mines — Newfoundland's active mines. F. W. Foote *166
Waite-Ackerman-Montgomery Mines—Copper reserves increased n238
Walker Mining—Cuts high-grade ore in north shoot n527
Maintains reserves n383
Waller Gold—Reopen mine n577
War Minerals decisions—Supreme Court to review n530
Water—Drinking fountain provides cooled water *505
Softening for boiler use. Gail Martin.. *475
Treatment and purification. J. B. Huttl 513
Weir discharge chart. S. C. Mifflen..... 459
Welding — Method reduces crusher repair costs *560
Western Exploration — O'Phir Hill — ore struck in property 35
White Horse Mine—New vein n289
Wilhelmsburg Tin Works — Copper refinery to start 32
William Penn Colliery—Submerged pump room controlled automatically..... *380
Wiluna Gold—Roasters in operation..... n339
Makes profit n580
Trial run of new mill satisfactory..... n241
Underground equipment is now complete. n194
Witwatersrand — Evolution of mining practices, especially in the Central Rand. Bernard Beringer *322
Experiences and reflections. Bernard Beringer 262
Wood, George McLane e1
Wright-Hargreaves — New shaft, higher tonnage n481
Ore reserves n191

Y

Young, George J.—Honored by San Francisco group n192
Yukon Consolidated Gold—To investigate. 84

Z

Zinc

Advances in zinc metallurgy. R. S. Dean 420
American Zinc Institute indorses market-broadening program. H. D. Keiser.. n382
Central milling the Tri-State district. E. Isern 49
Claims use of methane would lower zinc-reduction costs n381
Consolidated's zinc, acid, and fertilizer plants. G. J. Young..... *506
Determination of cadmium, lead, and iron in high-grade zinc. B. H. Strom.... 465
Electrothermic zinc. G. N. Kirsebom.. 55
Larger unit installed at Reno to test new process n432
Patent issue may arise out of methane zinc process n479
Smelting in Mexico. Spooner & Jenni.. *558
Volatilization processes for low-grade zinc material. K. R. Goehre..... 19
World zinc. J. D. Conover 105
Zinc Corp.—Operations to cease n241
Suspended operations n532
To suspend operation one week in four. n436

e editorial; n news; c comment and criticism
